- The higher grades attained in the Leaving Certificate gives your son more courses to choose from

Myths surrounding going to College

- You can only get into College with a 3rd language
- Higher points courses are better quality than lower points courses
- You are better doing a PLC, than going directly to 3rd level
- College is extremely costly and you don't get any financial assistance
- A sports scholarship will get me into College even if I do a poor Leaving Certificate
- I will take a year out and work and then go to College
